# Section 1 - Product and Company Identification

PRODUC	CT NAME & NUMBERS
MINWAX	K <sup>®</sup> WOOD FINISH <sup>®</sup>
209	Natural
210B	Golden Oak
211	Provincial
215	Red Oak
218	Puritan Pine
221	Ipswich Pine
223	Colonial Maple
224	Special Walnut
225	Red Mahogany

PRODUCT CLASS Alkyd Stain

MANUFACTURER'S NAME MINWAX Company 10 Mountainview Road Upper Saddle River, NJ 07458 EMERGENCY TELEPHONE NO. (216) 566-2917 INFORMATION TELEPHONE NO.

(800) 523-9299

### Section 2 – Composition/Information on Ingredients

\_\_\_\_\_

Products were reformulated on 01/01/00. Check manufacturer's date on lid of can. Products Mfg. After 01/01/00:

% WT.		Ingredient Name		
50-56		Mineral Spirits.		
		ACGIH TLV TWA 100 PPM		
		OSHA PEL TWA 100 PPM		
4-5	64741-65-7	Mineral Spirits (Odorless).		
		ACGIH TLV TWA 100 PPM		
		OSHA PEL TWA 100 PPM		
6-9	64742-52-5	Heavy Naphthenic Petroleum Oil.		
		ACGIH TLV TWA 5 Mg/M3 as Mist		
		OSHA PEL TWA 5 Mg/M3 as Mist		
6-9	64742-53-6	Highly refined Naphthenic Oil.		
		ACGIH TLV TWA 5 Mg/M3 as Mist		
		OSHA PEL TWA 5 Mg/M3 as Mist		
0-2	14807-96-6	Talc		
		ACGIH TLV TWA 2 Mg/M3 as Resp. Dust		
		OSHA PEL TWA 2 Mg/M3 as Resp. Dust		
0-4	13463-67-7	Titanium Dioxide.		
		ACGIH TLV TWA 10 Mg/M3 as Dust		
		OSHA PEL TWA 10 Mg/M3 as Total Dust		
		OSHA PEL TWA 5 Mg/M3 as Respirable Fraction		
0-0.8	1333-86-4			
		ACGIH TLV TWA 3.5 Mg/M3		
		OSHA PEL TWA 3.5 Mg/M3		

Products Mfg. Before 01/01/00:

## Section 3 – Hazards Identification

ROUTES OF EXPOSURE

Exposure may be by INHALATION and/or SKIN or EYE contact, depending on conditions of use. To minimize exposure, follow recommendations for proper use, ventilation, and personal protective equipment. EFFECTS OF OVEREXPOSURE

Irritation of eyes, skin and respiratory system. May cause nervous system depression. Extreme overexposure may result in unconsciousness and possibly death. SIGNS AND SYMPTOMS OF OVEREXPOSURE

Headache, dizziness, nausea, and loss of coordination are indications of excessive exposure to vapors or spray mists.

Redness and itching or burning sensation may indicate eye or excessive skin exposure.

MEDICAL CONDITIONS AGGRAVATED BY EXPOSURE

None generally recognized.

CANCER INFORMATION

FOR COMPLETE DISCUSSION OF TOXICOLOGY DATA REFER TO SECTION 11.

## Section 4 – First Aid Measures

If INHALED:	If affected,	remove fro	m exposure.	Restore b	preathing.	Keep warm
	and quiet.					

If on SKIN: Wash affected area thoroughly with soap and water. Remove contaminated clothing and launder before re-use.

If in EYES: Flush eyes with large amounts of water for 15 minutes. Get medical attention.

If SWALLOWED: Get medical attention.

### Section 5 – Fire Fighting Measures

FLASH POINTLELUEL101-110 °F PMCC1.07.0FLAMMABILITY CLASSIFICATION<br/>Combustible, Flash above 99 and below 200 °F

Carbon Dioxide, Dry Chemical, Foam UNUSUAL FIRE AND EXPLOSION HAZARDS

Keep containers tightly closed. Isolate from heat, electrical equipment, sparks, and open flame. Closed containers may explode when exposed to extreme heat. Application to hot surfaces requires special precautions. During emergency conditions overexposure to decomposition products may cause a health hazard. Symptoms may not be immediately apparent. Obtain medical attention. SPECIAL FIRE FIGHTING PROCEDURES

Full protective equipment including self-contained breathing apparatus should be used. Water spray may be ineffective. If water is used, fog nozzles are preferable. Water may be used to cool closed containers to prevent pressure build-up and possible autoignition or explosion when exposed to extreme heat.

### Section 6 – Accidental Release Measures

STEPS TO BE TAKEN IN CASE MATERIAL IS RELEASED OR SPILLED

Remove all sources of ignition. Ventilate and remove with inert absorbent.

#### Section 7 – Handling and Storage

DOL STORAGE CATEGORY

2

PRECAUTIONS TO BE TAKEN IN HANDLING AND STORAGE

Contents are COMBUSTIBLE. Keep away from heat and open flame.

Consult NFPA Code. Use approved Bonding and Grounding procedures.

Keep container closed when not in use. Transfer only to approved containers with complete and appropriate labeling. Do not take internally. Keep out of the reach of children.

To minimize the possibility of spontaneous combustion: control the accumulation of overspray; soak wiping rags and waste immediately after use in a water-filled, closed metal container; air dry filters outside, far from any combustible material and separated by bricks or other non-combustible spacers; dispose of all contaminated materials and waste properly. Consult OSHA 29 CFR 1910.107(b)(5) and NFPA 33, Chapter 8 (8-9) for the proper procedures.

### Section 8 – Exposure Controls/Personal Protection

PRECAUTIONS TO BE TAKEN IN USE

Use only with adequate ventilation. Avoid breathing vapor and spray mist. Avoid contact with skin and eyes. Wash hands after using.

These coatings may contain materials classified as nuisance particulates (listed "as Dust" in Section 2) which may be present at hazardous levels only during sanding or abrading of the dried film. If no specific dusts are listed in Section 2, the applicable limits for nuisance dusts are ACGIH TLV 10 mg./m3 (total dust), 3 mg./m3 (respirable fraction), OSHA PEL 15 mg./m3 (total dust), 5 mg./m3 (respirable fraction).

VENTILATION

Local exhaust preferable. General exhaust acceptable if the exposure to materials in Section 2 is maintained below applicable exposure limits. Refer to OSHA Standards 1910.94, 1910.107, 1910.108. RESPIRATORY PROTECTION

If personal exposure cannot be controlled below applicable limits by ventilation, wear a properly fitted organic vapor/particulate respirator approved by NIOSH/MSHA for protection against materials in Section 2.

When sanding or abrading the dried film, wear a dust/mist respirator approved by NIOSH/MSHA for dust which may be generated from this product, underlying paint, or the abrasive.

```
PROTECTIVE GLOVES
Wear gloves which are recommended by glove supplier for protection against
materials in Section 2.
EYE PROTECTION
Wear safety spectacles with unperforated sideshields.
OTHER PRECAUTIONS
Intentional misuse by deliberately concentrating and inhaling the contents can
be harmful or fatal.

None known.
HAZARDOUS DECOMPOSITION PRODUCTS
By fire: Carbon Dioxide, Carbon Monoxide
HAZARDOUS POLYMERIZATION
Will not occur
```

## Section 11 – Toxicological Information

### CHRONIC HEALTH HAZARDS

Carbon Black is classified by IARC as possibly carcinogenic to humans (group 2B) based on experimental animal data, however, there is insufficient evidence in humans for its carcinogenicity.

Cobalt and cobalt compounds are classified by IARC as possibly carcinogenic to humans (group 2B) based on experimental animal data, however, there is inadequate evidence in humans for its carcinogenicity.

Prolonged overexposure to solvent ingredients in Section 2 may cause adverse effects to the liver and urinary systems.

Rats exposed to titanium dioxide dust at 250 mg./m3 developed lung cancer, however, such exposure levels are not attainable in the workplace.

Reports have associated repeated and prolonged overexposure to solvents with permanent brain and nervous system damage.

### Section 12 – Ecological Information

ECOTOXICOLOGICAL INFORMATION No Data Available.

### Section 13 – Disposal Considerations

WASTE DISPOSAL METHOD

Waste from these products may be hazardous as defined under the Resource Conservation and Recovery Act (RCRA) 40 CFR 261. Waste must be tested for ignitability to determine the applicable EPA hazardous waste numbers.

Incinerate in approved facility. Do not incinerate closed container. Dispose of in accordance with Federal, State, and Local regulations regarding pollution.

#### Section 14 – Transport Information

DOT PROPER SHIPPING DESCRIPTION: Paint and Related Materials, NOIBN

IATA/IMDG SHIPPING DESCRIPTION: Paint, 3, UN1263, PG III, Ltd Qty

#### Section 15 – Regulatory Information
